

EASTERN  
MEDITERRANEAN  
MARITIME  
ARCHAEOLOGY  
FOUNDATION

Dear Colleagues,

The Eastern Mediterranean Maritime Archaeology Foundation invites you to participate in a voluntary survey aimed at providing up-to-date information concerning on-going underwater archaeological research in the eastern Mediterranean. This survey is designed to gather data and information about both underwater surveys and excavations of shipwrecks, ports or other submerged structures. The amount of information you share is entirely up to you, while your rights as your submission's original author are fully protected. EMMAF will only gather the data on its homepage as a way of promoting your research.

The eastern Mediterranean is undergoing extensive research. Nevertheless, to learn about recent surveys and excavations, cumbersome and time-consuming research is often necessary. Relevant publications and reports are widely scattered and frequently known only to those involved in the field. Through this survey EMMAF is attempting to address this problem. Should you choose to participate the results of this survey will provide an invaluable resource for scholars who are interested in maritime archaeological research.

The survey will take place on our official site [www.emmaf.org](http://www.emmaf.org) where participants fill out a simple on-line form. We invite you to forward this message to anyone who has recently completed or is presently conducting underwater research of any kind within the eastern Mediterranean region.

We thank you for your cooperation and wish you nice day.

The EMMAF team.
